

How to make a strong password. A recipe

Ingredients

1 familiar

word

1 capital letter

123

1 number

1 character

e.g.

My example

school

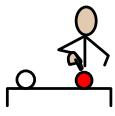

School

School88

School88!

Is

this

a

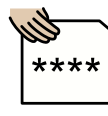

good

/

strong

password,

or a

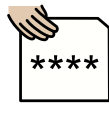

bad

/

weak

password?

Remember

the recipe.

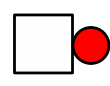

Tick

or

cross

next to

the

password

12345

Ell3ntinkham43

password

c00ki3s12

hello

Ilovebikes9!

26Teacher?

qwerty

Treehou5se_5

laptop

Now

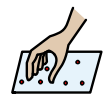

make

your own

password.

Choose

a

familiar

word

that

you can

easily

remember

Add

a

capital letter

Add

a

123

number

Add

a

! ? ,

character

Remember

-

your

password is

private.

That

means

you

should

keep

it

secret

by

not

telling

anyone
