

Magic Milk Sensory Activity!

You will need:

- 1) A bowl or shallow dish
- 2) Milk
- 3) Dish soap
- 4) Food colouring

All you need to do is fill a dish or bowl with about an inch of milk then drop food colours all over randomly. Then drop just a drop dish soap. Can you see what happens? The colours are spreading over the surface. You can use a Q-tip to cause some more motion to make swirling colours!
