

Messy play:

Some different things you could use: shaving foam, bubbles (bath or washing up liquid) on a tray, jelly, sand, flour, or even chalks or paint!

Some play ideas: You could make different types of marks (lines, circles, zigzags) for your child to copy. You could imitate the marks they mark, taking in turns to draw. You could draw some shapes and name what you have drawn.

Building

Some different things you could use: lego, duplo, mega blocks

Some play ideas: You could build a tower out of one colour of blocks-can your child find the colour they need from a choice. You could take it in turns to add blocks, and then enjoy knocking it down together! You could see who can build the tallest tower or make a animal to copy!
