

Upcycle paper into flower art.

Use any waste paper you can find and don't forget those Easter egg wrappers!!

1. Collect paper scraps, cardboard or foil
2. Design your dream flower, using a piece of paper and coloured pencils. Draw how you would like your flower to look.
2. Make your flowers, minus the stem.
3. Once your flower is made, find something suitable to make the flower stem.
4. Have fun creating a paper garden on a large piece of paper or cardboard, or make a recycled vase to put your flowers in.
5. Take a photo and upload it to evidence for learning so we can see your amazing creations.
