You will need:
2 dice.

Recording sheet for each player.
How to play:
Take it in turns to roll both dice

* Write the numbers on the recording sheet and add them together.

No Cheating. No Calculator!!!!

* Record your total in the total column and in the running total column
* Keep taking it in turns adding the numbers together and recording on the recording sheet, but in the running total column add the total from your turn to the previous total. For example on my first turn I threw a $2+4=6$. This turn I threw $6+4=10$ (see below)
In the running total column my number sentence is $6+10=16$, my new running total is now 16

| DICE ROLLS |  |  |  | RUNNING TOTAL |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2 | + | 4 | $=$ | 6 | 6 | + | 0 | $=$ | 6 |
| 4 | + | 6 | $=$ | 10 | 10 | + | 6 | $=$ | 16 |

* The first player to get to 101 is the winner, but you must get exactly 101
* If you go over you must subtract the number until you get under 101 and then add to get back up. For example, I have thrown $6+6=12$ and my running score was 94 . My number sentence would be $94+12=106$ I have scored more than 101!!
I now have to do a subtraction sentence, $94-12=82$ my new running score is 82

| DICE ROLLS |  |  |  | RUNNING TOTAL |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 6 | + | 6 | $=$ | 12 | 12 | + | 94 | $=$ | 106 |
|  |  |  |  | 12 | - | 94 | $=$ | 82 |  |

101 and Out Recording Sheet

| DICE ROLLS |  |  | RUNNING TOTAL |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| + | = |  | + | 0 | ニ |  |
