

Can you solve these capacity word problems?

Remember to show your workings in the box.

1. If a can of pop holds 10ml how much will 4 cans hold?

2. If I have a cup that holds 40ml and a mug that holds 30ml how many ml are there altogether?

3. A bath holds 80 litres. A shower takes 35 litres. How many litres are used if I have a bath and a shower?

4. A water bottle holds 500ml. If you swallow 100ml how much is left?

5. A jar has 300ml of jam. 150ml is used. How much is left?

6. You have collected some rain water in a bucket. The bucket holds 5 litres. I use 3 litres to water some plants. How much is left?

7. My roof leaks and I use 5 buckets to catch the rain falling in the room. Each bucket holds 4 litres. How much rain have I collected using all the buckets?

8. Mary was naughty and filled her mum's shoes up with cooking oil. Each shoe holds 150ml. How much oil did Mary use altogether when she put oil in four of her mum's shoes?

9. A cup of hot chocolate is 43ml. Another mug holds 134ml. How much hot chocolate is there altogether?

10. I can buy my favourite pop in 2000ml. I drink 1344ml. How much is left?

Self-evaluation

		
Easy	Tricky	Too hard

Why did you think this?
