

Weekly challenge: We're going to the Zoo

Aim: To explore different animals and their habitats

Take a virtual tour of the zoo: <https://zoo.sandiegozoo.org/live-cams>

- What animals do you see?
Children could comment and record what animals they see at the zoo (see zoo animal checklist).

Extension: Children can comment (or write a sentence) on the animals: What are the animals doing? Colour? Size? Eating? What do they like? Why?

- Sing 'We're going to the zoo'
Children can act out different animals that they see at the zoo. Take a video and upload it to Evidence for Learning for us all to see if you like.
- Make an animal mask.
Children can make a mask of an animal they saw at the zoo using whatever materials they like. Take a photo and upload it to Evidence for Learning for us all to see!
If you don't want to make one, you can print off one of our masks (see zoo animal mask file).
