spaghetti

/

pasta

Sealable bags

Food colouring

Vegetable oil

Tray

Method

1    /  as  normal, **+**  and then rinse  under

 cold  water.

2  Divide the spaghetti / pasta  into  plastic bags,  using **1**  plastic bag

 for each  colour.

3  Add several drops  of  food colouring to  each  plastic bag **++** along with a

 drop of vegetable oil.  (The  oil  just  helps to  coat the  pasta with 

 the colour).

4  Seal the plastic bag.  They are ready to be  shaken **+** and squished.

5   the  until  the  is  fully

 saturated  in  colour.

6 **1**  Once the  is  saturated open  the  bags, and  allow

 them  to  sit  for  10-15  minutes so  that the  colours  can  see

 into the  pasta.

7  .Rinse the pasta  under  cold  water to  remove  any  excess

food colouring.

8  Place  your  pasta  into a  tray or  bowl  and the  fun

 can  begin!
