

How to lay the table

1. Count how many people you will lay the table for. For example, I need to lay the table for 3 people so how many forks will I need? How many knives?

I need 3 forks and 3 knives.

2. As we will have pudding, I also need how many spoons? What sort of spoons? Tablespoons, dessert spoons or tea spoons?

I need 3 dessert spoons.

3. Carry the cutlery to the table using the handles as it is more hygienic.

4. Put the fork on the left hand side with the prongs to the top.

5. Put the knife on the right.

6. Put the spoon at the top so the scoop faces the prongs of the fork.

7. Perhaps you would like to make sure everyone has something to drink with their lunch or dinner. Maybe a glass of water?

Put the glass of water above the knife.

Please see the video to follow on the instructions.
