

Our topic is focusing on our planet and pollution.

There are 3 r's to recycling, Reduce, Reuse and Recycle

We have looked at Reuse, and made new things from old things.

You have helped to sort the Recycling

This week we are going to think about Reduce and I have set a challenge.

I challenge you to become a Rubbish monster and complete my three tasks!!

Challenge number 1: Look at the recycling in your home and complete chart.

Challenge number 2: Look at the five ways to reduce worksheet and complete it.

Challenge number 3: Make your own Rubbish monster from the recycling, take a photo and upload on evidence for learning for me to see.

Will you complete the challenge?

Good luck, looking forward to seeing the photographs of your monsters,

Pam
