

Matching CVC Words, Symbols and Objects Activity

It's time to read some CVC words and symbols and match them to objects! There are three versions of this activity so everybody can join in. CVC means words that are made from a Consonant then a Vowel then a Consonant.

Version 1: Read CVC words and match the objects

Write on paper CVC words of items you have at home. Gather these items and put them in a tray or a box. Encourage your child to read the words and match the objects. If you want to make the activity more physical, don't gather the objects, but let your child go around your house to find them themselves. Ideas for the words and objects you can use are: bag, tag, ham, jam, jar, can, pan, map, hat, mat, peg, red, pen, net, lid, bin, pin, mop, pot, jug, mug, rug, cup

Version 2: Read CVC symbolised words and match the objects

Similarly with version 1, use CVC symbolised words of items you have at home. Gather these items and put them in a tray or a box. Encourage your child to read the symbolised words and match the objects. If you want to make the activity more physical, don't gather the objects, but let your child go around your house to find them themselves. Find the symbolised words you can use in pages 3 and 4 of this document.

Version 3: Read CVC symbols and match the objects

Similarly with version 1 and 2, use symbols of items you have at home. Gather these items and put them in a tray or a box. Encourage your child to recognise or read the symbols and match the objects. If you want to make the activity more physical, don't gather the objects, but let your child go around your house to find them themselves. Find the symbols you can use in pages 5 and 6 of this document.
