

Rain Clouds

Summer is almost here and weather is hot and sunny. However, during the winter you must have seen lots of rain clouds in the sky. But have you ever seen a rain cloud in a jar? Let's bring the rain in to your home!

You will need:

1. One jar or glass
2. Water
3. Shaving foam
4. Food colouring

First, fill the jar with water, but leave about an inch from the rim. Next, add a layer of shaving foam to the water. Then, add a few drops of blue food colouring (or any colour of your preference) to the shaving foam. Now wait and watch carefully. What can you see?
