

## Salt Dough Family Lockdown Handprints

### Ingredients

500g plain flour,

250ml water

250g salt

Paints

Mix flour and salt together and add the water a little at a time until you get a smooth dough.

Roll it out big enough to fit the whole family's hand prints on!

Press your hands into the dough, wherever they fit.

Bake on low temperature for 3-4 hours making sure the bottom is completely solid. Allow to cool for 30-40 mins.

Then paint each hand an individual colour. Maybe choose your favourite colour!

If you have no ingredients you could make a family handprint picture instead.
