

Microwave

Puffy

Paint

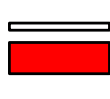

This

recipe

makes

thick

paint

and

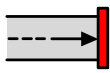

once

a

painting

is finished,

it

can

be

placed

in

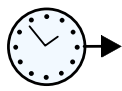

the

microwave,

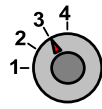

and

the paint

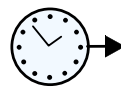

will

set.

It

will

then

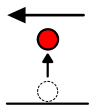

have

a

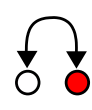

hard,

raised

texture

which

can

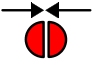

also

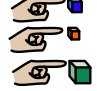

be

explored.

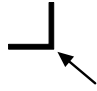

1   **2**   **2** 
1. Mix together 2 tablespoons of flour with 2 tablespoons of table

 salt.  Add  water and  food colouring  until it is the thickness of

 yoghurt.  Repeat for  each  colour.

2  Spread the  paint using  brushes or  hands, or  put it into 

 ziplock bags and  cut the  corner off to make a piping  bag.

3  Explore the  paint on  paper,  paper  plates or  cardboard.

4  If working in a  tray, lay  paper over the  mixture to  take

 a print.

5  Put in the  painted  paper in the  microwave for  10-30  seconds.
