this week

Aliens

???

Questions:

How many

planets

go around (orbit)

our

sun?

What are their names?

Can

you

put

them

in order

from

nearest

the

sun

to

furthest

away?

What

is the

nearest

planet to the

Earth?

Have

humans

ever

been

there?

What

planets

have

humans

sent

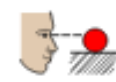

space

craft

to?

        
Make sure you watch the Story: But Martin read by Kay.

         
Try this Experiment: Make Alien Slime! (Watch the video by Helen from

 
Orange Class).

   
Activity: Design your own Alien.

  
Time to have a think.

  
What planet is it from?

      
What is its name? Draw or write down what it looks like. Think about its

         
shape and colour, hair or feelers, what noises it makes, how it moves or

      
travels. What is it good at? (like in But Martin)

         
Craft activity: Make a junk model of your Alien from clean recycling.

  
Craft activity ideas:
