

For today's sensory activity, please navigate to 'Other School resources' and into the folder 'Communication.' Here you will find my Stage one and Stage 2 WOW group activity. There are other examples that you are more than welcome to watch here too.

*Within Ellen Tinkham School, we primarily deliver WOW groups with activities at Stage 1 and Stage 2 within lower school classes and in the Sensory Hub. However, College are also now accessing the programme and we have been extending the ideas and activities to suit the older pupil needs. This week, I have used common kitchen items that you might have at home.*

### **Stage 1: Attention Bag**

**The aims of the bag session are to:**

- *Focus attention on the leading adult and their agenda*
- *Engage attention with enthusiasm*
- *Enjoy the session!*

**Items needed:**

- *Highly engaging toys and items that the children will (hopefully!) enjoy **watching***
- *A bag to put the toys in that you can keep them hidden inside*
- *A pen and whiteboard/ symbols for you to draw/show pictorial information to show the children what the next activity is.*

### **Stage 2: Attention Builder**

*The aims of this session are to:*

*Extend the amount of time the student can focus on a task;*

*Focus on a task with a beginning, middle and end;*

*Generalise this skill to a wide range of attention-builder activities.*
