

  
**I met an Alien**

            
 Last night I went for a walk to look at the moon and stars. I was up

            
 in the field near my house looking at all the beautiful stars when out of

            
 the tall crops walked a little Alien. I was so surprised I didn't know

            
 what to do or say. I just looked at him and he looked at me.

             
 I was speechless, I mean this is the first time I have met an Alien.

             
 I smiled, waved and said hello, He smiled, waved and said hello and

      
 then he ran off into the crops.

           
 I wish I had thought of some questions to ask him, there is so

      
 much I would like to know.

            
 Can you think of some questions you would ask an Alien if you ever
