

(ABC) 2 -    
English 2 - Transport week

 1 - 
Task 1 - The Aeroplane

1 ?   
1. How did the aeroplane get there?

2     ?
2. Where was it travelling from ?

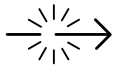

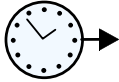

3   
3. Where was it travelling to?

4

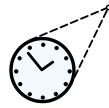

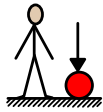

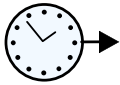

4. Who or what was on board the aeroplane?

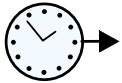

5

5. What will happen to the aeroplane? Will it have to be

moved or will it stay there forever? If it needs to be moved,

how will it be moved?

 On a grey day the grey people are on their way to work.

 Everyone is trudging in the same direction until one dreary person

 is knocked out of the flow.

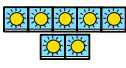

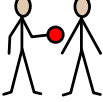

Watch the video <https://www.youtube.com/watch?v=uGGRIj0teDM>

 2. Can you design a new vehicle like the ones in the video to

 get one of the people to work. It must be able to move over the

 cars that are on the road.

English 2 - Transport week

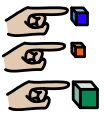

3     
3. Write a description of your new vehicle.

    
I have written an example for you;

    **3**    
My new rocket has three jet engines which make it move

     
faster than any rocket. It is a cone shape so that it

     
moves smoothly though the air. Inside there is a cockpit

  **2**      
which seats two people. Each person has to wear a safety

  
harness when travelling.
