

# Sun Safety Poster Design

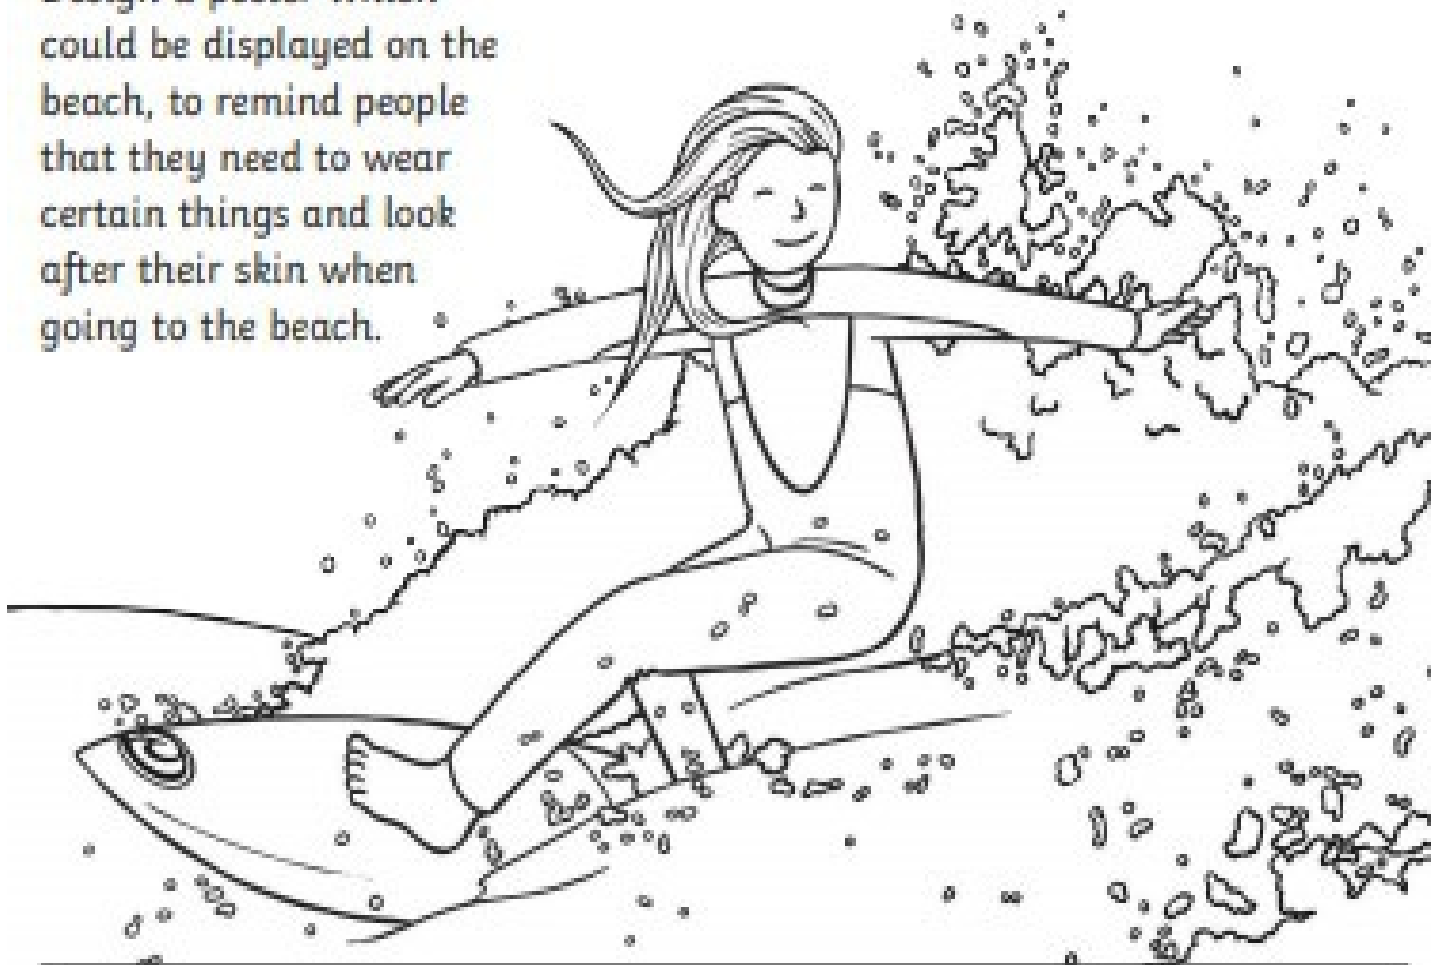

## Amazing Fact

Praia do Cassino Beach in Brazil, is the longest beach in the world. It measures over 150 miles in length!

## Challenge

When we go to the beach on a sunny day, we need to remember to protect ourselves from the sun. Although it is always fun being out in the sunshine, we have to protect our skin, head and eyes.

Design a poster which could be displayed on the beach, to remind people that they need to wear certain things and look after their skin when going to the beach.

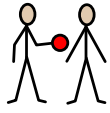

You could also try to find out:

- if you can find this beach on a map;
- which country has the most beaches;
- about different flags which are used on beaches and what they mean.

Draw

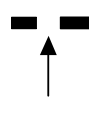

your

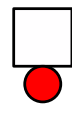

poster

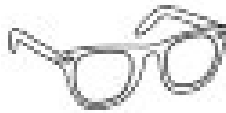

in

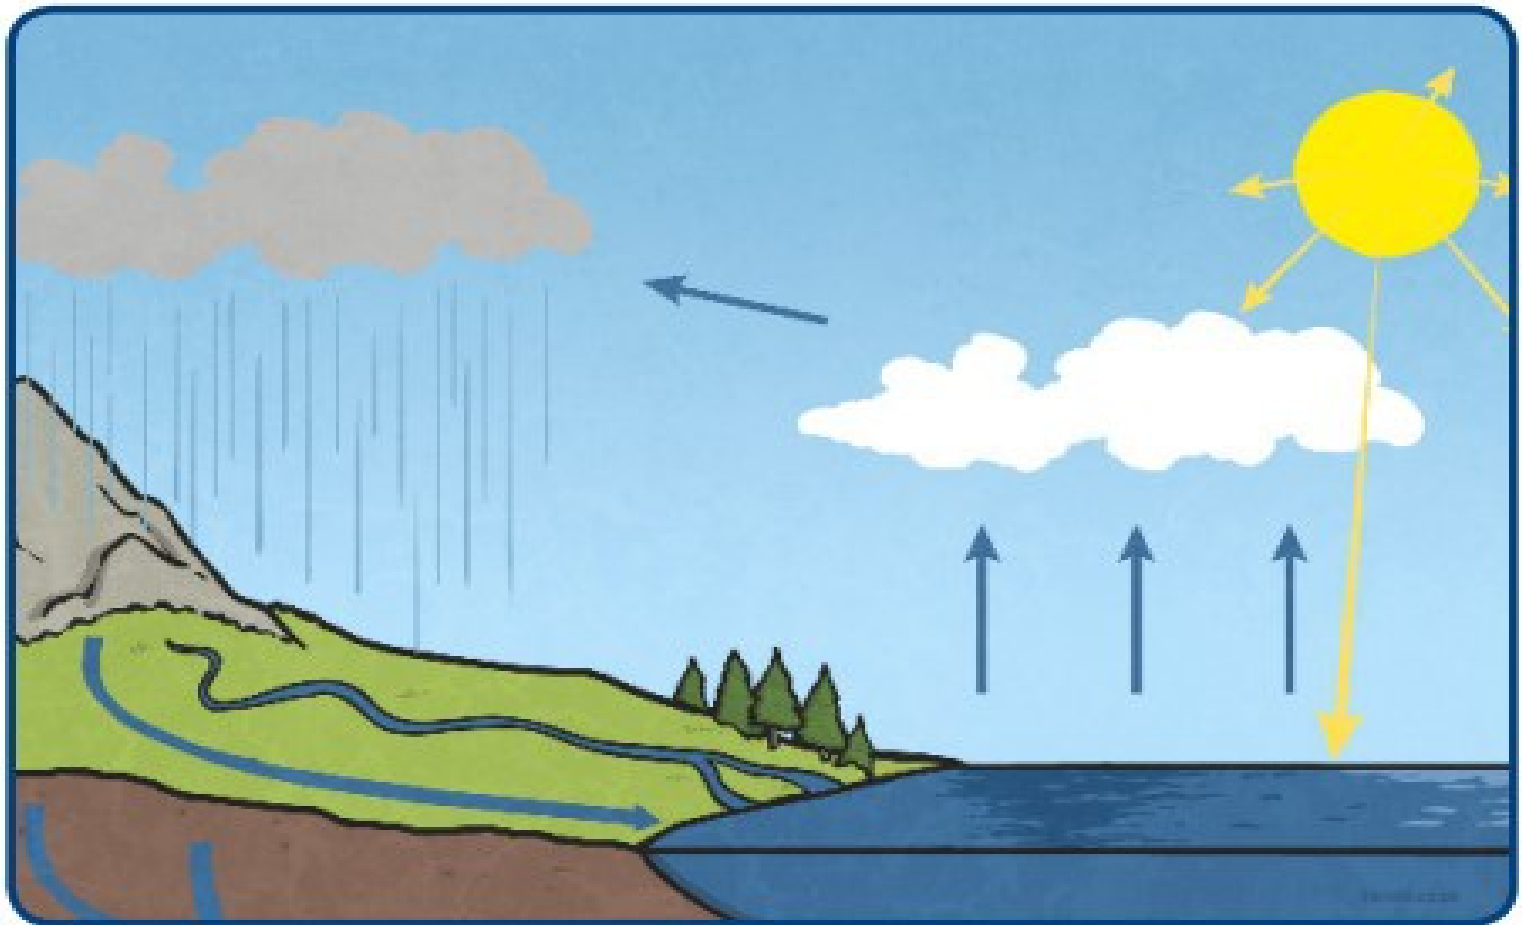

the space

below

# The Weather Forecast

Look at the picture. Talk about what is going on.

What do the words 'weather forecast' mean?

Where can people see or listen to the weather forecast?

What do you call the person who delivers the weather forecast?

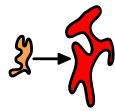

What types of people might need to know what the weather will be like? Explain why the weather is so important for them.

What is the weather like today?

What was the weather like yesterday?

What type of weather do you predict there will be tomorrow?

What symbols or pictures might be used for the following types of weather? Sun, Wind, Rain, Snow.

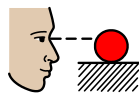

Become a weather forecaster

Use the map of the United Kingdom and the weather symbols to

become a weather forecaster.

You might like to watch the weather on the news first

to see what to do.

Put the symbols on the map and say what the weather is

doing in the different parts of the country.

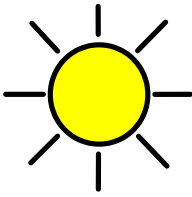

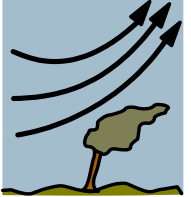

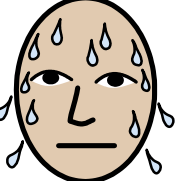

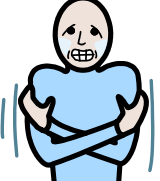

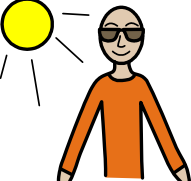

If you can record it, it would be lovely to see your

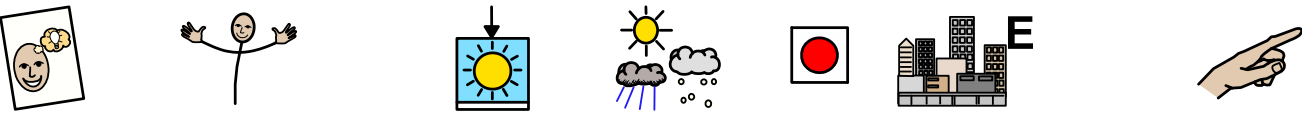

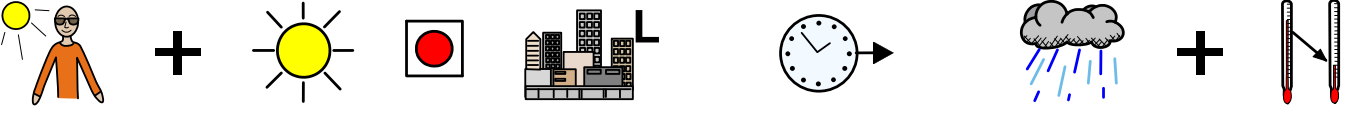

weather report on Evidence for Learning.

# United Kingdom

 sunny	 rainy	 windy
 stormy	 foggy	 snowy
 cloudy	 sleet	 icy
 hot	 cold	 warm

 Example: Welcome to today's weather. In Exeter it is going to be

 warm and sunny. In Liverpool, it will be rainy and cold.
