Old　Mac M　Donald D　sensory　tray

Adults:

I thought I would set up a fun Sensory Hide and Seek activity. This activity is also provides a learning opportunity that encourages communication and fine motor development.

Old Mac Donald had a Farm Hide & Seek Sensory Tub involves hiding farm animals and characters in the rice and split peas mixture.
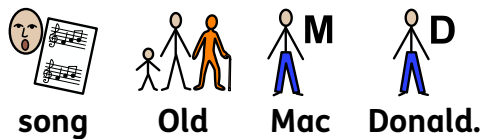

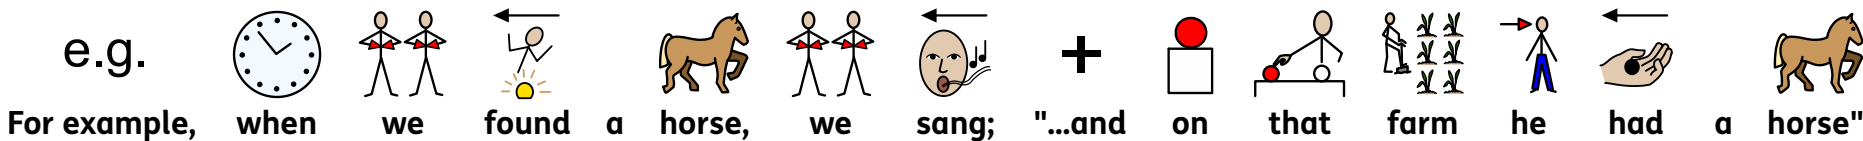

Activity ideas:

Hide all the farm animals in the rice and split peas mixture.

1. Using the tongs to find and catch them. The first animal to be found, add them into the song Old Mac Donald.

e.g. For example, when we found a horse, we sang; "...and on that farm he had a horse".

2 2. Use your hands, instead of using the tongs to find and catch the farm animals in the rice and split peas.

Communication:

Sing Old Mac Donald had a Farm.

Talk about what sounds each animal makes.
