

## Reflective Treasure Basket

Toys with plastic mirrored surfaces

Metallic fabric

Sheets of foil, balls of scrunched up foil or objects such as duplo blocks wrapped in foil.

Plastic string beads

Tinsel

Jam jar lids

Metal bowl

Saucepan

Spoons

A teaspoon

A serving spoon

Metal whisk

Water bottle with sequin stars in

Bangles

Plastic shiny baubles/tree balls

Small metal buckets

An old CD

Mirrored ornament

Hand bells

A shiny napkin ring

A shimmering shell

Key

A little watering can

**Alternative suggestion for exploring reflections:**

It's really easy to introduce reflective objects to water play, indoors and out. Simply put a plastic mirror into the bottom of a water tray, or wrap the tray in tinfoil or a shiny survival blanket before filling. Add to the reflective water play fun by using a range of metallic treasures such as jugs, cups and kettles in steel, copper and brass for scooping and pouring. Adding other reflective objects such as old CDs, glitter and silver Christmas tree beads adds extra excitement to the activity!
