Energy

suppliers

help

to bring

electricity

and

gas

power

to homes,

schools,

offices,

hospitals

and

many

other

places.

This

power

helps

to light

your

home,

cook

your

meals,

watch TV

and

much

more.

A team

of

skilled

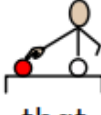

people

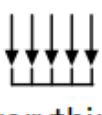

make

sure

that

everything

works.

Can

you

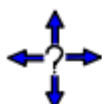

find out

how many

different

ways

electricity

is

made.

Find out

how

electricity

and

gas

gets

to

our

homes.

Water companies

supply

us

with

water.

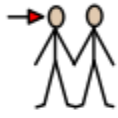

People

who

work

for them

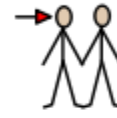

are

very important

as

they

make

sure

our

water

is

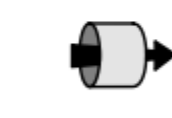

cleaned

before

it

goes through

the

pipes

and

comes out

of

our

taps.

Can

you

find out

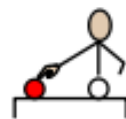

where

the

water

that

the

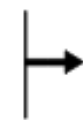

water companies

use

comes

from.

If water

is

dirty

how

can

we

clean

it?

Can

you

make

some

dirty

water

clean.

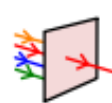

See

the

how

to

filter

water

instructions.

Being able

to keep

in

touch

with people

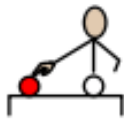

is very

important.

People

that

work

for

telecommunication

companies

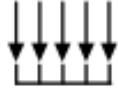

help

keep

us

all

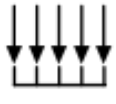

in

touch.

Think about

all

the

ways

you can

keep

in

touch

with

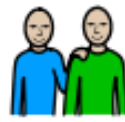

your

family

and

friends.

Make

a

list

or

draw

pictures.

Can

you

make

a

string

telephone.

See

instructions.
