

# Tissue Paper Rainbow

## Materials:

- Tissue papers in 6 different colours.
- 1 pack per colour should be enough
- Scissors
- Glue
- Unsharpened pencils
- 1 Piece of A4 paper

# Tissue Paper Rainbow

## Instructions:

1. Draw a rainbow on the A4 paper to create a base for your tissue paper, or use the template.
2. Cut your tissue paper into 2 inch by 2" squares.
3. To apply the tissue paper to the paper, place the pencil in the centre of a tissue paper square and wrap up the paper square around the pencil - see picture.
4. Then dip the base of the pencil (covered by the tissue paper square) gently into some craft glue and place onto the rainbow.
5. Remove the pencil and repeat, placing the tissue papers as closely as possible to create a really full and fluffy texture.
6. Start with the outer most stripe on the rainbow and then move inward.
