

Recycle old clothes or plastic bags to make your own bunting!

You will need:

Scissors,

String,

Stapler with staples,

Unwanted clothes or fabric. (Check its ok it's use it)

Plastic carrier bags

Piece cardboard

1. Cut a triangle shape from a piece of card. This is the template for your bunting flags, to ensure they are all the same size.
2. Place the template on top of your fabric or plastic bag and cut around it to create flags for your bunting.

The more flags you cut, the longer your bunting will be.

3. Place your flags in a line, face down.
4. Cut a long piece of string and place it down across the top of your flags.
5. Fold the top of each flag over the string, so that it is covered.
6. Staple the folds down, to seal the string across the back of each flag.

...FINISHED!

Your bunting is now ready to hang!
