

Watch Amber's WOW bag video – then, make your own bubble snake!

How to make a bubble snake (like Ambers!)

You will need:

- A plastic bottle
- Scissors
- A sock
- A shallow bowl of washing up liquid mixed with a little bit of water

Instructions:

1. Use the scissors to cut the bottom of your plastic bottle off (you may need a grownups help for this!) You can throw the bottom piece away.
2. Put the sock over the end of the bottle to cover the part you have just cut off. Make sure it's pulled over securely.
3. Dip the sock end of your bottle into the washing up liquid and water mixture.
4. Blow through the top of the bottle and watch your bubble snakes slither out of the end!
