

Glass

bottle

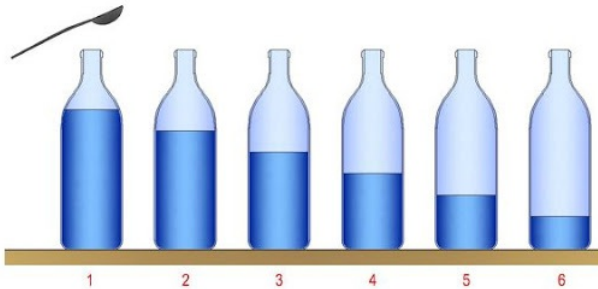

music

with

water

Remember

to be very

careful

with

glass.

It is

very

sharp

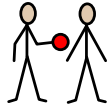

if broken

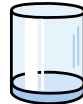

Fill

up

your

glass

water bottles

with

a

jug

Using

a

metal

teaspoon,

gently

clink the bottle

What

sound

did it make?

Does the

amount

of

water

in

the bottle

change

the

sound?

See

the

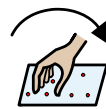

video

of

Tamsin

trying

this

experiment
