

Match the colours

 **1**  is  your  matching  game  board. **(DON'T CUT THESE OUT)**  

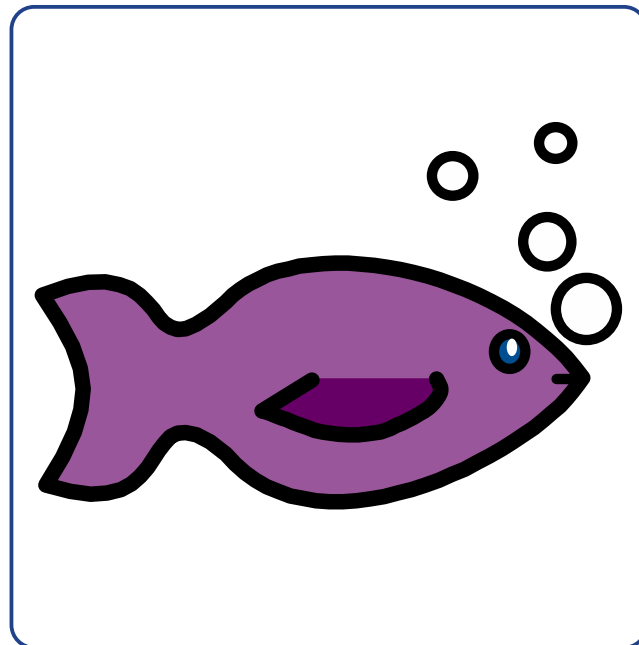

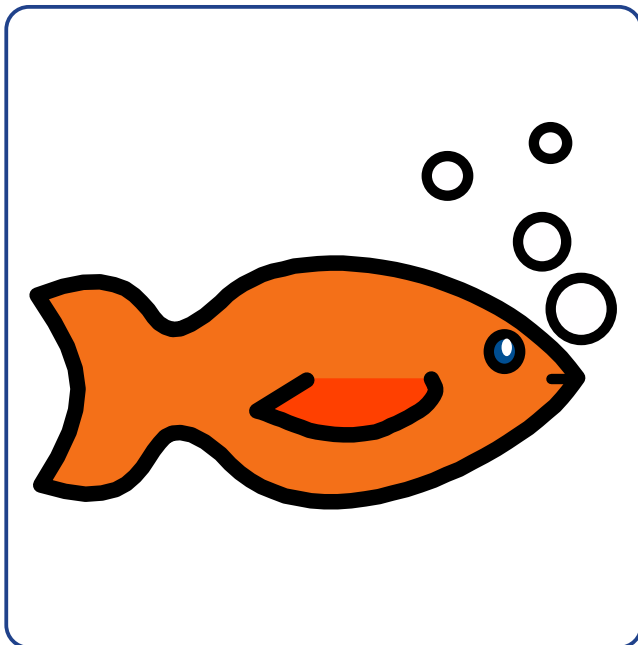

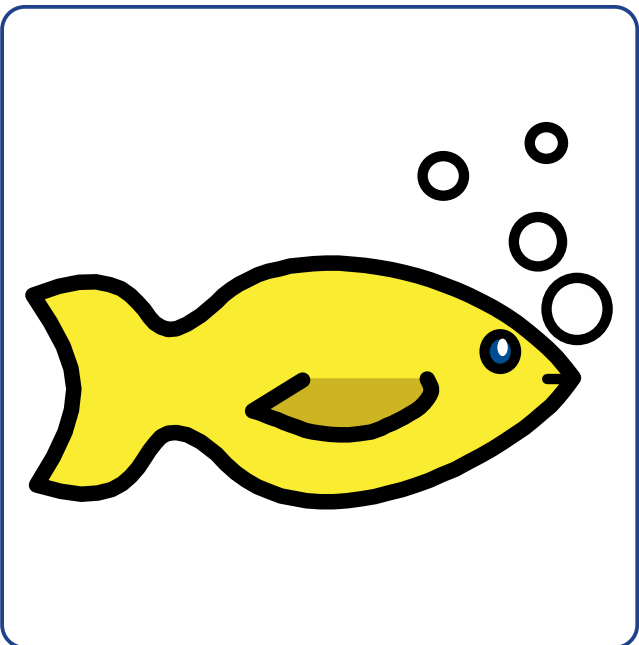

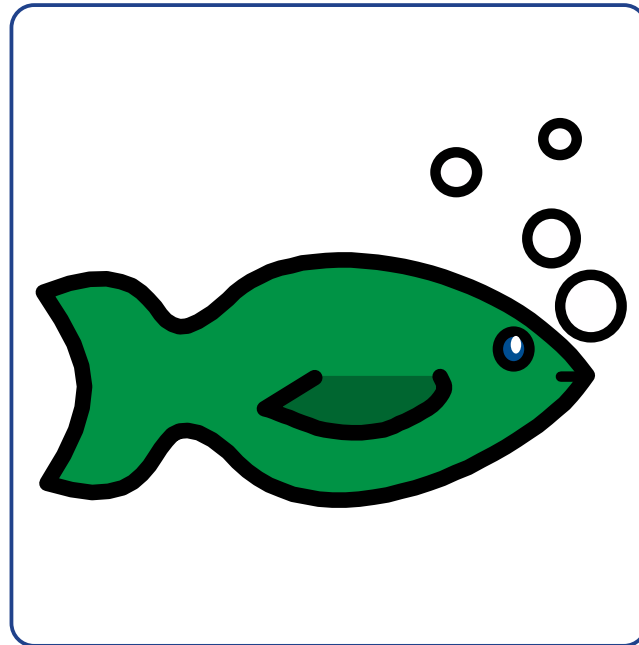

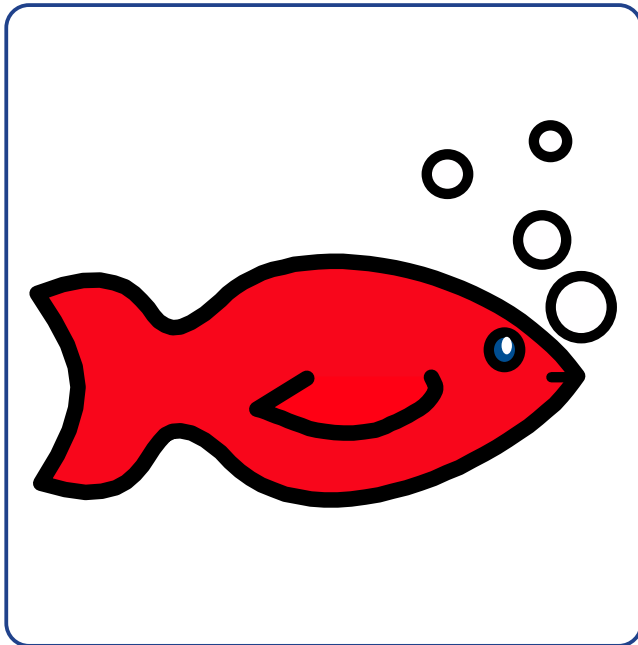

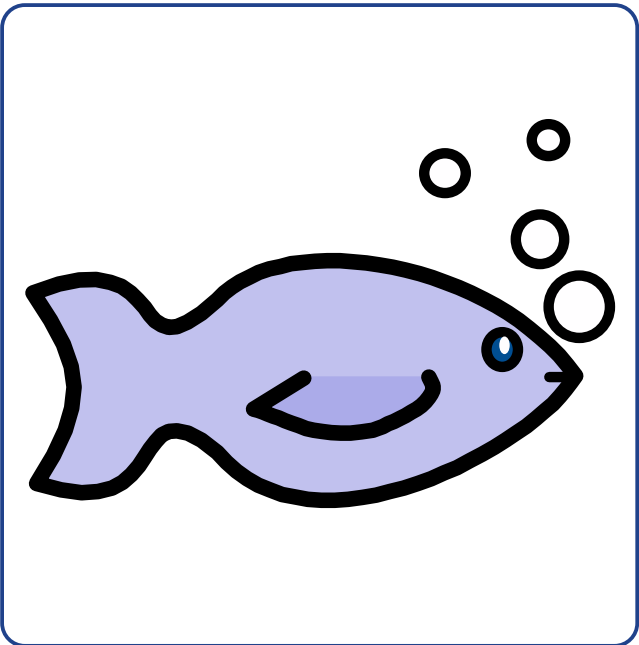

2 + 3 + 4  are  your  game  cards. You need to  cut  these  out.

 Can you  match the  coloured fish? Can you  now  match the  coloured  writing to the  correct  coloured  fish. If you 

 find  that  easy, can you  match the  writing with  no  colours  to the  correct  coloured  fish??

*  Adults  could you  take a  video or  photo's of  your  child  trying  this  please  and  send it to  us  on  their

 evidence  for  learning.  Thank you
