Ocean   scene   art

You   will   need:

White   paper

Coloured   chalks   or   watered   down   paints
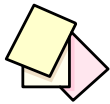

Black   paper

Glue

Scissors

1
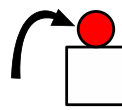

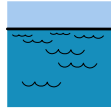

1. Start by colouring your ocean on to the white paper, use various shades of blue and purple for the sea.
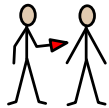

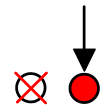

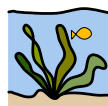

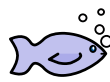

2

2. If using chalks rub your hand over the colouring to mix the colours together

3
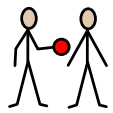

3. Once you have finished your sea background, draw some silhouettes- fish, seaweed or some other sea animals on the black paper and cut out.
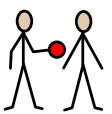

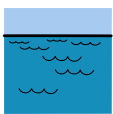

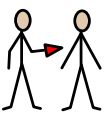

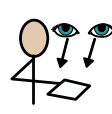

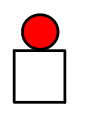

4 4. Glue your silhouettes on to your ocean picture

5 5. Leave to dry

Here is an example for you to look at. Once you have made your ocean picture could you show me on Evidence For Learning, that would be great.
