

Water in a glass experiment

You

will

need:

a

glass

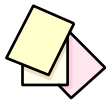

filled

with

water

a

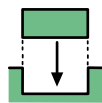

piece of paper

or

card

to

fit

over

the

glass

a

bowl

(just in case!)

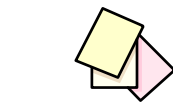

Method:

Put

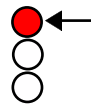

the

piece of paper

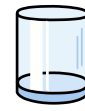

over

the

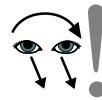

top

of the

glass

Carefully

hold

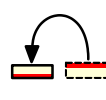

the

paper

and

flip

the

glass

upside

down

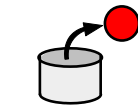

Over

the

bowl,

gently

take away

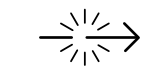

your

hand.

What

happens?
